THE LIE GIVEN IN CONGRESS.

MR. SPARRS AND MR. CLYMER IN A

Members Looking for a Fist Fight-The Illapute over a Trivial Circumstance-Other of the Personal Wrangles this Session WASHINGTON, April 7 .- The culmination of a series of disgraceful exhibitions of personal ill temper was reached in the House to-day when Congressman Sparks of Illinois called

Mr. Clymer of Pennsylvania a liar. The House unquestionably would have been treated to a free fight had it not been for the gentlemanly manner in which Mr. Clymer behaved under very trying circumstances. The Democratic majority in the House cannot be too severely censured for the manner in which certain of its members have conducted themselves since Congress met. There has been a succession of personal disputes characterized by exceeding ad temper and the use of indecorous language, almost from the day the session began. It is a notorious fact that the majority is broken up into cliques, whose action upon certain legislative questions is greatly influenced by the personal feelings with which the members having charge of the legislation are regarded. On more than one occasion the defeat of important measures can be traced to personal animosity against the gentlemen managing the bills. The most conspicuous of the Democratic family quarrels

can be traced to personal animosity against the gentlemen managing the bills. The most conspicuous of the Democratic family quarrels this session are the following:

Mr. Blackburn and Mr. Coffroth at the last night session of the House had a private difficulty, which resulted in the die being given by the Kentuckian to the Pennsylvanian.

At a meeting of the Committee of Ways and Means, about two weeks ago, Mr. Morrison and Mr. Tucker politely said that Mr. Fernando Wood had untered an untruth.

At a recent executive session of the Senate, Mr. Thurman and Mr. Pinckney Whyte had a lively dispute about one another's political records. The language used by the two gentlemen is said to have been severely sarcastic. Yesterday Mr. Springer and Mr. Manoing settled, in personal explanations on the floor, the assertion that Mr. Springer had been influenced by an anonymous letter in voting on the Donnelly-Washburn contested election case.

Mr. King and Mr. Acklen of Louisiana are not ensonies, because the latter forged the name of the former to a report from the Committee on Foreign Affairs.

The only serious dispute in which a Republican Congressman has been involved this session was the Garfield-Townshend controversy, when the latter called the former a wifful faisifier. The customary safety valve of political discussion has been closed this session, and there is an immense pressure of steam in the Congressional bollers.

The disgraceful proceeding in the House to-day grew out of a trivial amendment to the Army Appropriation bill. Mr. Clymer has charge of this bill in the House, Mr. Sparks, Chairman of the Committee on Military Affairs, was instructed by his committee to move as an amendment to the bill in Committee of the Whole. Mr. Sparks and the approved by the General of the Army. Alter a great deal of wangling the amendment was deleated in Committee of the Whole. Mr. Sparks was considered in the House. rembling manner he repeated again his quasi apology.

Mr. Clymer said that the language used by him had been correctly reported. No request had been connectly reported. No request had some to him from the Committee on Military Affairs that he should permit a vote on the amendment in the House.

Mr. Russell of North Carolina sent to the Clerk's desk a resolution censuring Mr. Sparks.

Mr. Cox moved that the resolution be laid upon the table. A discussion ensued as to the right to debate the resolution. Mr. Sparks accept, and with a profound obeisance toward Mr. Clymer, said that he unconditionally withdrew the effensive remark. Whereupon Mr. Russell withdrew his resolution and harhour ones more prevailed.

TRANSFERRING THE MINISTERS. Appointments Made in the New York Meth

odlst Conference Yesterday. The contest over the Presiding Eldership changes in the Methodist Church was concluded yesterday in the New York Conference, in the Rev. Dr. J. P. Newman's Central Church, at Seventh avenue and Fourteenth street, after a four days' debate. The Presiding Eiders are appointed by Bishops. Out of a conference committee of five to suggest changes, three committee members reported that the ensuing General Conference should recommend that Presiding Elders be appointed to pastoral charges wherever practicable; that such a change of discipline be made by the General Conference as will give the annual Conferences the right to determine the number and the boundaries of the several districts within their limits; and, finally, that the General Conference be recom-mended to make the office of Presiding Eider elective by the annual Conferences. The minority report read yesterday in the Conference dissented from all three propositions. The Rev. Dr. G. S. Hare of Sing Sing offered the following amendment to the minority re-

The Rev. Dr. G. S. Hare of Sing Sing offered the following amendment to the minority report disserting from the second clause of the minority report, after which, with rounds of applause, the minority report was adopted, thus defeating the main propositions of the majority report: "Resolved, that we recommend such constitutional changes of discipline as will give to the annual Conference the right to determine the number and boundaries of the several districts within such limits and to such number of Fresiding Elderships as the General Conference would recommend."

The funeral procession moved out of the church in the same order in which it entered, the relatives of the two families walking abreast. The bodies were buried in adjoining plots at Greenwood.

Mr. McCurdy and Mr. Aldrich came to this city about the same time, in the early part of the century, the former from his home and birthplace, at Lyme. Connecticut, and the latter from Orange County. One was 14 years old, and the other 15. They found employment with Mr. Lockwood, who keet a dry goods store in Cedar street. He lived over als store, and they boarded with him. One of their ventures, when quite young, was to take charge of a lot of goods which their employer sout in a coasting vessel to Petersburg, Va., where they managed the sale of the merchandise. About 1825, soon after attaining their majority, they formed a partnership as afrygoods dealers, the firm being subsequently known as McCurdy, Aldrich & Spencer. They dissolved partnership in 1857, at d the two senior members of the firm retired with a fortune of more than a million dollars each. They lived in Warren street for many years, and on the marriage of Mr. Aldrich to a daughter of the late Sameel Wyman of Baltimore, they had built for them bouses at 8 and 10 East Fourtheath street, where they lived as neighbors for a toler of a century. The growth of business in the street encoached upon the privacy of their norms, and Mr. McCurdy sold his property and made his home with relatives. Mr. Aldrich gave un his residence for business

Mr. McCurdy had married several years before his partner, his wife being the daughter of Dr. Lea of Newbrk, and nieve of the late United States Senator and Chancellor Freinghaysen, the White candidate for Vice-President.

Mr. McCurdy died on Monday evening at 4 o'clock, aged 80 years. His wish was that he should be burled from the home of his old partners. Mr. Aldrich died on Monday afternoon at half past 3 o'clock, aged 79. He was kept ignorant of Mr. McCurdy's death. Both partners died from affections of the heart.

"Then, sir, you are excused from further attendance in this court as a juror. Mr. Clerk, you may draw another juror."
Nicholas retired from the jury bex, and was about to withdraw from the room when Judice Knapp recalled him and said that, as he was the only defendant in court, he had right to be heard in his own behalf. Nicholas explained that he was unable to account for his counsel's absence, and asked for an adjournment, which was granted.

The livestor is Robert B. Atchission, formerly foreman of the drawning rooms or Ripies, Howland & Co. jewellers, of Busion. The principle is said to be an entirely novel mechanical motion and a new application of power. It is described as a "permodicular, recipromating rolary, a correl motion, by which a pair of toda is made, each separably, to revolve horizontally and rise and tall excitedly." By this friction is to a great extent avoided, as the toda while at work are actually longer out of the insternal than in it. They are of various shapes, according to the material to be worked upon, and strike recular eating, turning, or winding blows, delivered at the rate of six tien thousand a minite. It is estimated that the work accompassion by the machine for metals in thirty-are hours would take a skilled and rapid workman from 120 to 140 hours to finish with equal shrices. The work of the work and stone magnines exhibit equally astoneining results, while the latter is so simple in its operations that one man sau manage four of them. Boys or girls can run the metal and work machines, and the work done is as perfect as though by hand.

DELEGATES FOR CHICAGO. AN EFFORT TO CAPTURE CONNECTICUT'S

The Beanly was Seven for Edmunds, Two for Blaine, Two for Grunt, and One for Sher-man - The Delegation not Instructed. New Haven, April 7,-The methods of capturing a Convention employed successfully in other States, such as monopolizing hotel ac-commodations and procuring the attendance of a multitude of camp followers, have never been conspicuously resorted to in Connecticut; but the Blaine campaign seems to be largely de-pendent upon such methods, and they have in the most offensive manner. WEDNESDAY, April 7.

There was to-day a severe decline in prices on the Stock Exchange, beginning with the coal shares and extending to nearly the entire list. The Elevated roads, Canada Southern, and Lake Shore were the best supported, but showed weakness. The small offerings and takings of Government bonds and the state of the money market were the chief causes of the decline. The latest dealings revealed the lowest prices of the day, but the close was rather steadier. The more important chances for the day were as follows: Advanced—Canada Southern, M. Declined—Northwestern prif., 1; Northwestern com., M.; Reading, 1; Western Union, S.; Ches, and Ohio, 14; Del., I., and W., 24; Del., and Hudson, 18; Chicago and Alton, 1; Wabash and Pacific, 28; Union Pacific, IM; Ill. Central, 1; Eric com., 14; Jersey Central, 38; Pacific Mail, 114; C., C., C., and Ind., 14; Han, and St. Jo, pref., 15; Obio and Miss., com., 14; Ohio and Miss., pref., 3; Kansas and Texas, 29; Fron Mountain, 14.

Governments were dull and easier. Railroad Governments were dull and easier. Railroad bonds were more active, but at declining prices for Erie seconds. Iron Mountain incomes, and Kansas and Texas issues, with nearly upiform weakness. Money on call 6 % cent, and 16% commission, but the close was at 5 % cent.

The House Committee on Banking and Currency, at its meeting to-day, authorized Representative Price to report a bill to the House repealing the law requiring two-cent stamps upon bank checks.

Insurance stocks sold at auction as follows: Pacific, 2054; Stuyvesant, 119½; Peter Cooper, 182, 182; Franklin and Emporium, 130; Citizens', 200; Nassau of Brooklyn, 161; City, 120; Sterling, 80; Jefferson, 141, Tradesmen's Bank stock brought 110 and Pacific Bank, 146.

Hinson & Cummings, cotton brokers, at 113 Water street, notified the Cotton Exchange today of their inability to meet their engagements, the cause being the failure of customers to respond to calls for margins. The firm is also said to be liable on its own account for differences on about 5,000 bales. As no settling figures have been fixed or contracts closed, the exact amount of the firm's liabilities cannot be stated.

The earnings of the New York Central Railroad for March, 1880, are officially reported at \$2.854,814, against \$2.474,292 for March, 1879, an increase of \$380,442. For the six months commencing Oct. 1, 1879, the earnings have been \$16,312,316, against \$14,255,296 for the six months commencing Oct. 1, 1878, being a gain of \$2.027,020. Allowing 50 W cent, for running expenses, this shows an increase of net earnings of about \$1,000,000, or a little more than 1 W cent, on the capital.

The Chicago Tribune says: "There is considerable danger that the war in passenger rates to Western points will soon be resumed. It is but a few weeks since the rates were restored and an agreement for their maintenance entered into. But already complaints are being made that the agreement is being violated by several rouds, and threats of retailating by cutting the rates openly are made by those who claim to have thus far strictly maintained the agreement."

It was calculated that while the cost of the railway from Lake Superior to the Pacific Ocean would be no more than \$60,000,000, the revenue derived would pay all the interest on the cost, and even more.
